

# RING SIZING GUIDE

## OPTION 1 - PRINT AT 100% (DO NOT SCALE)

Try this finger sizing tool to help determine your ring size. Cut a slit along the top line and wrap it around your finger, pushing the pointed end through the slit and measuring the size there. Remember that the ring should be snug but still able to fit over the largest part of your finger.

## OPTION 2 - PRINT AT 100% (DO NOT SCALE)

Use the circles below to judge sizes against your existing rings. Ensure that you align the circles with the **inside** of your band.

## OPTION 3 - IF YOU DON'T HAVE A PRINTER

Download the free 'Ring Sizer by Jason Withers' app and follow the instructions to get an idea of your ring size by placing your existing rings on your phone screen.
